[View My Work\(Live Portfolio\)](#) [LinkedIn](#)

Business Analyst with 8 years of experience in stock broking firms, specializing in requirement gathering, data analysis, process improvement, API Integration and regulatory implementations. Skilled in stakeholder management, business systems, RMS/OMS platforms, and project planning, with proven expertise in delivering trading, IPO, and customer-facing solutions that enhance operational efficiency and user experience. Analytical, detail-oriented, and focused on driving effective business solutions in fast-paced financial environments.

EXPERIENCE

BUSINESS ANALYST

MIRAE ASSET CAPITAL MARKET (MSTOCK).

Feb 2024 - Current

- Lead migration of OMS/RMS from Rupeesed to Kambala, improving system performance, stability, and integration efficiency.
- Collaborate with Product and Development teams for monthly m.Stock web and app releases, enhancing functionality and user experience.
- Manage implementation of RMS regulatory changes, ensuring compliance and operational efficiency.
- Managed rollout of BSE F&O trading functionality, enhancing platform capabilities and supporting business expansion initiatives.
- Develop Credit for Sale (CFS) functionality, enabling users to avail 100% margin on sold stocks.
- Led implementation and rollout of Smart Pay fund addition functionality, enabling seamless and secure fund transfers for customers.
- Utilize SQL-based data analysis to validate business requirements, support feature implementation, and ensure data accuracy

Projects

- **Credit for Sale (CFS) – m.Stock**

Integrated CDSL Early Pay-In API for Credit for Sale (CFS) functionality, enabling users to receive instant trading margin on sold stocks instead of waiting for the T+1 settlement cycle.

- **Smart Pay – m.Stock**

Integrated Razorpay Smart Pay API to enable seamless one-click fund addition, allowing users to instantly add funds without manually logging into the trading platform.

- **Yes Stock Trader**

Implementing new features, optimizing app performance, coordinating cross-functional teams, managing stakeholder communication, and prioritizing feature development.

- **BSE F&O Trading – m.Stock**

Managed production rollout of BSE F&O trading functionality, expanding trading capabilities and supporting business growth initiatives.

- **INVESTNOW / Digify**

Investnow platform allows all the HDFC BANK & Other bank account clients to invest in the Mutual fund and Digital gold who don't have the trading account

PRODUCT MANAGER YES SECURITIES.
